TUNING:

Open 2 1 12 23 13 123

NOTES FOR TUNING: With a chromatic tuner, tune each note (pull the tuning slide out if sharp or push in if flat). This will give you a very good start point. In the BBb Overtone Series, notice that the 5th partial is a little flat (adjust slides to play in tune) and the 11th partial is extremely flat (not useable).
